Title/Organization: Director of School Health for Lauderdale County Schools/
member of CPIT

Name: Michelle Brazier

Email: [REDACTED]

Please add your comment here if 100 words or less. For lengthier comments see below.: I have been a member of CPIT in Lauderdale County for over 10 years. I am a RN and serve as the medical component of the team, as well as represent the school system. Our CPIT team is so important to me for several reasons. Being a member of this team has given me a voice to stand up for the children of Lauderdale county who are victims of abuse. Our CPIT team is just what it says a team - we work so well together. I have built relationships with vital members of our community through this team. One relationship I have built is the one I have with our DA's office. Ms. Julie Pillow is on our team and if she can not attend then Ms. Joni Cook attends. I know with out a doubt that if there is evidence that a child has been abused Julie will do what she can to make sure the perpetrator is prosecuted. It is a relief to know I live, work and raise my children in a county that is not going to allow abuse of children to continue. I just don't believe any other county works like this. Please keep our CPIT in the current judicial district. The relationships that we have built in our CPIT team with our DA's office I feel is one of a kind. We all work so very well together with one thing as a priority to fight for the children of Lauderdale County. I want to end by saying I am not just writing this because I was asked to, I am writing this because I truly feel if our CPIT team moves to a different judicial district it will be a sad day. Why mess with something that is working so well together and why bother a group of people that fights for the children of Lauderdale county. We have something good here - please don't mess it up!!!
Thank you!
