ESSAYS/PERSONAL STATEMENTS

28. What are your reasons for seeking this position? *(150 words or less)*

I am seeking the position of Criminal Court Judge Division II because I want to bring my life experience to the bench to ensure all people are treated fairly. I have the unique perspective of seeing how crime effects people in Davidson County. With 16 years on the police department, I have seen people at their worst and the heinous acts they commit. I have comforted mothers whose children have been victimized. I have been with people accused of crimes from their arrest through jury trial and I know how that effects the person and their family. As a prosecutor I have sat down with victims of crime and heard their stories and shared their tears as they experienced a tragedy they did not expect. With this perspective I know that I can be fair and impartial to all sides and ensure that victims and those accused will be treated equally.

29. Describe the judgeship you seek (i.e. geographic area, types of cases, number of judges, etc. and explain how your selection would impact the court. *(150 words or less)*

Criminal Court Division II in Nashville Davidson County is one of six criminal courts in the Twentieth Judicial District. These courts handle multiple matters on a weekly basis: jury trials, probation violations, evidentiary matters, sentencing hearings, post-conviction relief, indigence hearings, supervising bonding companies, grand juries (this is a brief list). Davidson County has 35 jury weeks a calendar year so it is imperative that courts work hard to ensure that these weeks are used diligently so that all parties are afforded a timely trial. In 2016 there were 17,281 events docketed in the criminal courts in Davidson County. My experience in the trial courts and selection to the court would ensure that I am able to go to work on my first day to serve the citizens of Davidson County.

30. Will you uphold the law even if you disagree with the substance of the law (e.g., statute or rule) at issue? Give an example from your experience as a licensed attorney that supports your response to this question. *(250 words or less)*

Yes without a doubt I would follow the law, rules of procedure and evidence without regard for my personal thoughts.

One issue I have reservations about is the Drug Free School Zone and its application. I agree with the enhancement provisions and mandatory minimum sentence due to the inherent dangers that coincide with drug deals. This statute should be used only at a time and place when children are present and at risk. I have seen cases that this provision was used when a person drove past a school at 3:00 in the morning and no children were in harms way.

A second issue is the resistance to re-examine science as it evolves in the justice system. For example in DUI cases, while we all recognize that drinking and driving is a large problem and needs strict enforcement science is being ignored. The law on breath testing i.e. State v. Sensing is still the law despite scientific finding that how the instruments are calibrated are not scientifically valid. Field Sobriety Test's while being shown to have a reliability factor of under 70% on each task are still allowed. The ability to challenge them is limited because it is not considered scientific and the officers testifying are not experts. DUI cases need to be aggressively enforced but as science changes so must the courts.
