Please add your comment here if 100 words or less. For lengthier comments see below.: My representative, Mr. Bruce Griffey, has outlined his opposition to the re-districting of the 24th and 27th Judicial Districts and his concerns to back up his opposition. As a citizen of Henry County in the 24th district, I stand in agreement with his opposition and for the reasons he stated. As he also stated, this had been proposed previously and it was determined that it was not in the best interest of either district and the same holds true now. I am requesting that the districts remain as they are currently. Thank you.
