Lincoln has updated its security cameras throughout the courthouse (converted from analog to digital), which now provides for better recording and remote access.

Installed a generator to back-up power supply

Installed video arraignment system and monitors

Updated the panic alarm buttons

Installed magnetic locks on exterior doors

Installed security monitors at the security desk to allow for visual inspection of hallways

Please describe any recent court security incidents in your county or unique court security issues facing your county.

Please explain if and how security staffing issues have impacted court security in your county.

Adequate staffing is always a concern, particularly when security staff is required to depart for county-to-county transport of inmates. These staffing holes have been temporarily filled with road deputies, but such is not ideal.

What are your highest priority needs related to improving court security in your county?

Staffing.

We need to remove and install a new set of doors in one of the entrances to the Courthouse in order to replace the current solid wood doors with a door set containing a small section of glass in order that security may be able to see anyone approaching from the exterior wishing to gain entrance.

We wish to install a better fire detection system and install a fire suppression system throughout the Courthouse
