Video Arraignment / Video Conference equipment was installed to reduce inmate transports

Please describe any recent court security incidents in your county or unique court security issues facing your county.

Due to limited space, we lack sufficient area for secured attorney/client meeting rooms. As a result, an "in-custody" inmate met with his attorney in a room adjacent to the Courtroom. Unfortunately, the attorney left the room and did not inform law enforcement of his departure. Upon doing so, an unauthorized visitor entered the room with the inmate. Corrective action has been taken to ensure that this set of circumstances does not occur again.

Please explain if and how security staffing issues have impacted court security in your county.

Our most pressing security issue is our lack of sufficient number of security officers. We only have two (2) on-duty patrol deputies on each shift. As a result, when Court is in sessions, those two (2) deputies are required to report to court to handle the Courtroom security duties rather than patrolling the county. We are in desperate need of funding for personnel to ensure that we can adequately handle both courtroom security and road duties.

What are your highest priority needs related to improving court security in your county?

As previously mentioned, we need assistance with personnel funding in order to ensure adequate staff to maintain court security and typical road duties.

We need to add video cameras in strategic areas of the courthouse.

The Courthouse is a multi-use facility due to the fact that other county fee offices are located therein. The four points of ingress/egress creates unique challenges in providing optimum security, particularly with limited security staff.
