Addendum to 2022 County Courtroom Security Report

What are your highest priority needs related to improving court security in your county? *Security*

The Justice Center needs additional security personnel at the entrance to screen people properly before entering the courtroom, maintain order in the court hallway and clerks' office. However, the Chancery Court has severe needs. The courtroom security is deficient in meeting minimal courtroom security standards. The deficiency includes inoperable panic buttons in the courtroom and clerks' office, inoperable magnetometer, which does not meet ADA Standards and handheld detectors are inoperable. In addition, those personnel assigned to court security need a dedicated radio with headsets assigned to them or assigned to the court, which can be signed out as needed. Other needs are access to court proceeding need to be limited to one door and security point be established at that entrance only. The rear stairway needs to be secured and restricted to authorized personnel.
