Please add your comment here if 100 words or less. For lengthier comments see below.: The judicial district of the 24th judicial is too large. Henry County should be added to Obion and Weakley counties. The current district would be better served more efficiently with Henry County being out of the district. The current judges already cover from north to south and taking out Henry county would allow less time on the road and more time hearing actual cases. Bruce Griffey is not taking anything other than his own county into consideration

Please Attach Lengthier Comments Here.:
